

## **CommuniCare Credo**

We believe that our first responsibility is to our patients – to the end user of our services and their families and caregivers, to the agencies with whom we contract and to all others who access our services. In meeting their needs, we must stay true to the concept of high-quality care that is cost effective. We must constantly strive to maximize the patient care within the available fiscal resources.

We are also responsible for those who work with us – employees, independent contractors, students, and volunteers.

We are committed to the provision of an inclusive environment that is also a secure workplace with conditions that are clean, orderly, and safe.

We are committed to providing opportunities for students, and for people with disabilities.

We will remain open to suggestions and complaints and work to incorporate that feedback into our everyday practice where possible.

We will encourage education and professional development and place a high priority on sharing that knowledge.

We will be good corporate citizens and give back to our community through good works, financial contributions, and the encouragement of volunteerism.
